Attachments: image002.wmz; oledata.mso; EPA 114 Data Request Stack Test Results by Year (REVISED).xlsx

Good evening Yvezee,

In response to your question regarding the DVP facility hydrocarbon/VOC emissions. Hydrocarbons are total non-methane hydrocarbons reported as methane. The EPA factor of 1.086 for SCAQMD Method 25.3 is used.

The DVP Title V permit requires testing of hydrocarbons annually. The following table depicts the hydrocarbon results from each of the last 6 annual compliance tests.

Copies of the test results are also attached to the spreadsheet included with this email. The Summary page of the spreadsheet shows each annual stack test. The hyperlinks can be used to bring up the actual test results of all the stack tests. Hydrocarbons are typically in the first 2 pages of the results.

I can be available to further discuss these results (or if I have misinterpreted your request) at your convenience.

DVP Hydrocarbon stack test results				
YEAR	UNIT 1	UNIT 2	LIMIT	UNITS
2016	0.58	1.08	5.9	lbs/HR
2017	0.96	0.74	5.9	lbs/HR
2018	0.5	0.51	5.9	lbs/HR
2019	3.04	0.4	5.9	lbs/HR
2020	0.43	0.42	5.9	lbs/HR
2021	1.09	1.12	5.9	lbs/HR

Best Regards Mark

Hi Yvezee,
Just letting you know we are still working on your question for the Section 114 question regarding stack testing. The lead stack tester we use has been out of the country, I hope to hear back soon. Thanks for your patience.

Mitchell

Hi Yvezee,

I hope you had a good 4th.

I tried to upload the files to the link this morning. There are quite a few, especially due to the SDS book, and the site was acting like the upload didn't go through. Could you verify you received the files listed in the attached txt file? If not, I will upload again in smaller batches.

Thank you. As before, please feel free to reach out to me with any questions.

Hello Mitchell,

I hope all is well. I sent you a new link via WebClient so you can upload the remaining documents. Let me know if you have any questions or concerns.

Thanks and take care,

Hi Yvezee,
I hope all is well.

Desert View Power is gathering the last documents to complete the data request and submit prior by Tuesday. Could you provide a new link for us to upload to? The last WebClient link shows as expired from my end.

Thank you,
Mitchell

Hi Mitchell,

Thank you for your patience. I emailed you a separate link to WebClient. It's a secure file transfer tool we use instead of Dropbox. Please let me know if have any other questions or concerns.

Thanks and have a great weekend!

Best,
Yvezee Lapada

Hi Yvezee,
I was following up to see if EPA accepts Dropbox as a file transfer method. I will be available mostly by phone tomorrow or this weekend, checking email periodically.
Thanks for any input you have.

- Mitchell

Yvezee,

If you have time today or tomorrow, I was hoping to speak by phone to coordinate the file transfer in advance of our submittal on Monday. We plan to use Dropbox if that is acceptable. Please let me know your availability, or feel free to reach out at either number below.

Thank you,
Mitchell

Hello Mitchell Martin,

It is definitely a difficult time during this COVID-19 pandemic, and we appreciate your detailed letter requesting an extension. This email serves to approve the extension.

As stated in your extension request, we are expecting responses to Sections 1-4; 7; 8; 10; 18-20; of the § 114(a) Request by May 3rd, 2021. We expect the responses to the remaining Sections by July 6, 2021. Please let us know if you have any questions or concerns.

Thank you and take care.

Yvezee Lapada
